Company Background	VITATON (M) SDN BHD formed in Malaysia in 1991 with the idea of producing water based products, namely mineral water. The company has a very high perspective on water based products, based on the fact that there is a global shortage of clean and healthy water. Though formed only in 1991, the company has made a positive impact in this field. To date, the company is a package manufacturer for more than 50 brands of mineral water marketed both locally and overseas. We also trade with our own brand and at present, has a link chain of about five hundred agents' distributors spreading all over Malaysia. Our overseas market is located mainly in Singapore. We foresee a steady increase in demand in the next few years to come.
